CONVENTIONAL CHALLENGES

- Manual lead tracking & follow-ups
- Static paper-based plot records
- Delayed allotment processing
- Reactive infrastructure maintenance
- Fragmented data across systems

GIS TELEMETRY HUB

Our advanced Operation Center provides real-time GIS telemetry, sector yield tracking, and allotment flow management to ensure complete visibility across your township projects.

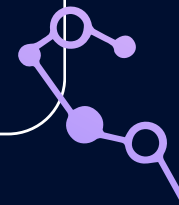

FAXTOR AUTOMATED SOLUTIONS

- Automated lead nurturing workflows
- Interactive plot maps & visualization
- Real-time allotment automation
- Instant infrastructure health alerts
- Predictive maintenance scheduling

OPERATION CENTER

Real-time monitoring and automation for complete infrastructure visibility and control

INTEGRATED ECOSYSTEM

CRM & Sales Modules
Smart Lead Lifecycle
Plot & Inventory Center
Digital Allotments
Channel Partner Ecosystem

Unified platform connecting every stakeholder seamlessly.

 Faxtor

CONNECTED MODULES

Faxtor's integrated ecosystem brings together all critical real estate operations under one roof. From lead capture to final allotment, every module communicates in real-time. Our CRM tracks prospects through the complete sales journey while inventory management ensures accurate plot availability across all channels.

Investor management and project progress insights provide stakeholders complete visibility into their investments.
